

Electric Vehicle (EV) Display

Name of Event: _____ Date of Event: _____

Booth #: _____ Meeting Room #: _____

Name of Exhibiting Company _____

Contact Person/Title: _____

Phone: _____ Email: _____

Type of battery: _____

Battery Capacity (kWh): _____

Make/Model/Year of vehicle: _____

To exhibit an Electric Vehicle (EV), please acknowledge the following:

- Will not charge electric vehicle or electric vehicle battery indoors
- Will not leave electric vehicle unattended while charging outdoors
- Vehicle has a trickle charge 12v option for display that does not go to main EV battery pack

Electric Vehicles (EV)

- All aftermarket or DIY electric vehicles must disconnect high voltage batteries
- Trickle charge (12v) power sources will be approved on a case-by-case basis

Electric Vehicles (EV) can be charged outdoors as long as below guidelines are met:

- Exhibitors must have approval from show management.
- Show contractor must set up a charging station with the following requirements:
 - Must be 30' away from building
 - Area must be 10' from any combustible materials
 - Must be a clear path to the charging area in case of emergency

I have read the Electric Vehicle/EV guidelines

Email to boothplans@lvca.com for approval
